

# Patient Informed Consent

**Notice:**

Before we begin your appointment, we want to inform you about how we document your care to ensure accuracy and efficiency. Our practice uses an advanced documentation tool called **Juvonno**, designed to securely capture key details from your consultation. This tool allows your clinician to focus more on you during your visit while ensuring your medical records are comprehensive and accurate.

Your consent is important for us to use this technology. Rest assured, your information is always handled with the highest level of security and privacy, in full compliance with applicable privacy laws.

By signing this consent form, you are agreeing to allow your clinician to use Juvonno during your consultation.
